IAPSM's Textbook of Community Medicine 2019-06-30

an indispensable guide for first time nurses on working with doctors the joys of the night shift and facing mistakes you've completed the necessary education passed the exams and you're finally ready for your first year as a professional nurse but there is still trepidation accompanied by many unanswered questions a true first year of nursing 101 guide this book covers topics like managing feedback working with doctors working night shift and recovering from a mistake writer and nursing professional Beth Hawkes draws from her own experiences to offer expert tips for first timers venturing into this important discipline writing in a manner that's digestible and including illustrative anecdotes along the way Hawkes will put readers at ease with her clear advice and directives many of which can be applied in professional settings outside of nursing she offers rookie nurses sample questions to help guide them on how they should be communicating with preceptors and colleagues from morning to night the perfect gift for nurses just entering the field

Essentials of Community Health Nursing 1993

punchily written he leaves the reader with a sense of the gross injustice of a world where health outcomes are so unevenly distributed times literary supplement splendid and necessary Henry Marsh author of Do No Harm New Statesman there are dramatic differences in health between countries and within countries but this is not a simple matter of rich and poor a poor man in Glasgow is rich compared to the average Indian but the Glaswegian's life expectancy is 8 years shorter the Indian is dying of infectious disease linked to his poverty the Glaswegian of violent death suicide heart disease linked to a rich country's version of disadvantage in all countries people at relative social disadvantage suffer health disadvantage dramatically so within countries the higher the social status of individuals the better is their health these health inequalities defy usual explanations conventional approaches to improving health have emphasised access to technical solutions improved medical care sanitation and control of disease vectors or behaviours smoking drinking obesity linked to diabetes heart disease and cancer these approaches only go so far creating the conditions for people to lead flourishing lives and thus empowering individuals and communities is key to reduction of health inequalities in addition to the scale of material success your position in the social hierarchy also directly affects your health the higher you are on the social scale the longer you will live and the better your health will be as people change rank so their health risk changes what makes these health inequalities unjust is that evidence from round the world shows we know what to do to make them smaller this new evidence is compelling it has the potential to change radically the way we think about health and indeed society

Diseases of Ear, Nose and Throat-Ebook 2017-10-07

the textbook aims to serve primarily all the undergraduate and postgraduate medical and dental students as well as postgraduate students of nursing public health health administration and public administration
